

# Muhammed Erdem

## Senior Front-end Engineer

📍 Madrid, Spain

✉ [muhammed@erdem.dev](mailto:muhammed@erdem.dev)

🌐 [muhammed.erdem.dev](https://muhammed.erdem.dev)

Specialized in front-end development with 8+ years of experience building scalable, user-centered applications. Passionate about exploring new technologies to stay adaptable and innovative while delivering impactful results.

## Professional Experience

### Senior Front-End Engineer | Remote (February 2023 - Present)

OpenDialog - AI-powered webchat platform

Tech Stack - Vue, Vite, TypeScript, Pinia, Figma

- Led the development of a Vue 3 application, leveraging TypeScript and Vite for optimal performance.
- Built a dedicated library of tailored components to power webchat solutions.
- Made the webchat app 100% accessible by adhering to key accessibility standards, ensuring usability for all audiences.

### Senior Front-End Engineer | Remote (June 2022 – January 2023)

Helio Finance - Web3 payments platform for creators & businesses

Tech Stack - React, Next.js, TypeScript, GraphQL, Figma

- Developed a Web3 payments platform enabling seamless crypto transactions.
- Released a React NPM package, streamlining third-party platform integrations.
- Improved user adoption by collaborating with the community for seamless product integration.

### React Native Engineer | Remote (July 2021 – January 2022)

Postpay - UAE-based buy-now-pay-later shopping app

Tech Stack - React Native, GraphQL, TypeScript, Figma

- Developed a React Native mobile app enabling seamless payment experiences with GPay integration.
- Enhanced app performance and scalability through modular architecture.
- Successfully deployed the app on App Store and Google Play, achieving robust user adoption.

### Front-End Engineer | Remote (April 2020 – July 2020)

The Coingaming Group - Leading crypto gaming company

Tech Stack - React, Next.js, GraphQL, TypeScript, Figma

- Designed and implemented interactive components for crypto gaming platforms.
- Improved UI/UX consistency across devices for enhanced user experiences.
- Optimized development workflows by creating advanced context-based state management.

## Front-End Engineer | Istanbul, Turkiye (April 2019 – April 2020)

Boyner Group - Turkey's leading fashion retail group

Tech Stack - Vue.js, TypeScript, Gulp, Rollup, Figma

- Built modular components for e-commerce product pages using Vue.js/Vuex.
- Delivered JAMstack-based solutions, addressing scalability and performance challenges.
- Ranked #1 in CodePen's "Most Hearted" list in 2019 for an innovative interactive credit card form.

## Front-End Engineer | Istanbul, Turkiye (November 2017 – April 2019)

Pixelate Creative Studio - Digital services agency

Tech Stack - Vue.js, SCSS, JavaScript, JQuery, Adobe XD, Photoshop

- Led the development of scalable, reusable interfaces for client projects.
- Ranked #1 in CodePen's "Most Hearted" list in 2018 for creative design solutions.

## Front-End Engineer | Diyarbakir, Turkiye (May 2016 – August 2017)

Pixel360 Software Co. - Digital agency

Tech Stack - JavaScript, SCSS, JQuery, Photoshop

- Designed and implemented custom CSS grid systems for responsive web designs.
- Enhanced user engagement with dynamic components and animations.
- Created intuitive and engaging landing pages to promote key company initiatives

## Key Skills & Technologies

Frontend Frameworks - NextJS, ReactJS, VueJS, React Native

Programming Languages - TypeScript, JavaScript (ES6+)

Design Tools - Figma, Adobe XD, Photoshop, Illustrator

Build Tools - Vite, TurboPack, Webpack, Gulp, Rollup

Other Expertise - Web Accessibility, SwiftUI, Node.js, Python

## Awards & Achievements

CodePen Recognitions - Ranked #1 in "Most Hearted" lists in 2018 and 2019 for interactive and innovative components.

Accessibility Leader - Achieved 100% compliance with WCAG standards for OpenDialog's webchat application.
